FREEBOARD

ADVANCED CONTROL

We started out wanting to snowboard all year, wherever and whenever we wanted. And so, we designed a board that gave riders the control of a snowboard on pavement.

As Freebord has evolved, so has our goal: bring as much control as possible to riding on pavement. Our riders can carve, slide, slow down and stop whenever they want. They can go as fast or as slow as they want. They can bomb the steepest of streets or ride mellow cruisers; hit big open roads or the narrowest of sidewalks.

On a Freebord, riders have the control they need to ride what they want and how they want.

WE BELIEVE RIDING ALL YEAR IS BETTER THAN RIDING SOME OF THE YEAR,
AND RIDING EVERYWHERE IS BETTER THAN ONLY RIDING SOMEWHERE.

COMPLETE
BOARDS

COMPLETE BOARD PACKAGES

Freebord complete board packages have everything needed to get started riding - deck, trucks, bindings and wheels are all included. Freebord offers 2 complete packages to choose from: **All Around** or **Downhill**.

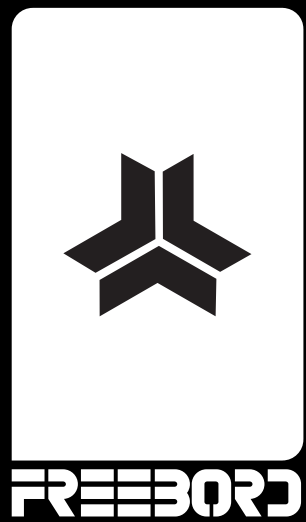

G3 ALL AROUND COMPLETE MAPLE OR BAMBOO SERIES

The Freebord All-Around is our entry level complete. Custom poured 70mm Standard edge wheels and 59mm centers provide an ideal all-around setup that lets riders move from downhill to slopestyle to freestyle and back again with ease.

PACKAGE INCLUDES

- G3 deck (maple or bamboo*)
 - S2 bindings
 - 2x G3 Truck
 - 4 Freebord Standard 70mm edge wheels
 - 2 Freebord 59mm center wheels
- *The G3 All Around package is available with both 7 ply Canadian Rock Maple or Bamboo decks. See Deck section of this catalog for different deck options.

COMPLETE

G3 DOWNHILL COMPLETE

MAPLE OR BAMBOO SERIES

Freebord's Downhill package takes the ride to the next level, with a bomber setup designed specifically for riders ready to shred hills of any grade. Specially formulated 80mm Slasher edge wheels and custom centers provide the ideal balance of grip, stopping power and durability.

PACKAGE INCLUDES

- G3 deck (maple or bamboo*)
 - S2 bindings
 - 2x G3 Truck
 - 4x Freebord Slasher 80mm edge wheels
 - 2x Freebord 72mm center wheels
- *The G3 All Around package is available with both 7 ply Canadian Rock Maple or Bamboo decks. See Deck section of this catalog for different deck options.

DECKS

DECK sizing

Freebord decks come in 75cm, 77cm, 80cm, 83cm, 85cm and 85cm Wide lengths. Choosing the right deck size is extremely important.

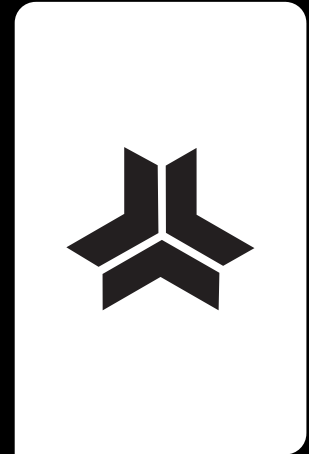

Because of the bindings on a Freebord, the width of a rider's stance is based on the length of the deck.

Although shoe size and riding style should be taken into consideration, a rider's height is the best indicator of the width of their stance.

FREEBORD **BOARD SIZE CHART**

DESIGNED BY
SNOWBOARDERS
THE SNOWBOARDERS

BOARD SIZE	HEIGHT RANGE	STANCE WIDTH	DECK WIDTH
85 Wide	6'0" - up 185cm - up	24" 61cm	9.5" 24.1cm
85cm	6'0" - up 185cm - up	24" 61cm	8.5" 21.6cm
83cm	5'11" - 6'1" 180 - 185cm	23.2" 58.9cm	8.0" 20.3cm
80cm	5'8" - 5'10" 172 - 179cm	22.0" 55.9cm	8.0" 20.3cm
77cm	5'6" - 5'8" 167 - 172cm	20.8" 52.8cm	8.0" 20.3cm
75cm	up to 5'6" up to 167cm	20.0" 50.8cm	8.0" 20.3cm

TRUCKS BINDINGS

G3 TRUCK

Recently released after years of development with our top riders. The G3 truck delivers a precision ride that can bomb any hill and stand up to the hits for the rider looking to thrash. Available complete or without wheels.

- T6 cast aluminum base plates and hangars
- Black powder-coated
- Flat hangar design and extended bracket
- Base wheel bracket with no-slip adjustment notches
- Hangar width: 13.55 inches
- Base plate length: 7.10 inches
- Base plate width: 2.8 inches

S2 BINDINGS

The S2 Bindings are Freebord's 2nd generation bindings. With six vertical adjustment variables, and +30/-30 degrees of rotation, the S2s can be dialed in to perfectly fit any riding style. The S2's molded tongue is designed for comfort and fits snugly across the top of the foot, giving maximum edge control.

- S2 Upper: injection molded, glass-filled nylon.
- Rotationally adjustable
- Vertically adjustable
- Stainless Steel base.
